THURSDAY EVENING, DEC. 30.

A RABBIT PLAGUE IN NEVADA. - A farmer in from a ranche about twenty miles below Panaca yesterday informed us that the fields of growing vegetation, etc., are totally destroyed by large armies of rabbits that infest that section of country. These pests visit the different ranches every morning, and make a general tour through the grain and vegetable crops, devouring and destroying everything in their march. One farmer, whose ranche is in Meadow Valley Wash, had his entire crop of cabbages and grain destroyed.

The farmer has been patiently cultivating this plot of ground for the last three months, with the expectation of laying in enough pro-visions for the winter, and when about ready for the market these pests made their appearance on his ranche, with the above result. His loss is estimated at about \$500. Prairie's rauche, fifty miles north of Pioche, has been visited by an army of these animals, and fifty acres of the finest barley destroyed; and at the ranche of Judge Rives, in the valley below town, as soon as the grass or alfalfa shoots above the ground, it is devoured by the rabbits. Poisoned wheat is going to be freely used by the farmers, with the hope of killing them off.—Pioche (Nev.) Journal.
